

Installation React-Bootstrap Icons

1. <https://icons.getbootstrap.com/> <== Go this website, there is icons.
2. `pnpm i bootstrap-icons` <== use this command into your terminal in the project folder path.
3. Check your package.json file in your project folder, you will see as below:

```
....  
  "dependencies": {  
    "bootstrap": "^5.3.3",  
    "bootstrap-icons": "^1.11.3", <== You will see like this  
    "react": "^18.3.1",  
    "react-bootstrap": "^2.10.4",  
    "react-dom": "^18.3.1"  
  },  
....
```

4. Click the icon in that website that you want to use and you will see the code like this ==> `<i class="bi bi-1-square-fill"></i>`.
5. Copy that ==> `<i class="bi bi-1-square-fill"></i>`
6. Paste in to your code. Example:

```
...  
  
    <Button variant="link" onClick={sortDescending}>  
      <i className="bi bi-arrow-down"></i>  
    </Button>  
  
...
```

7. You have to import this code ==> `import "bootstrap-icons/font/bootstrap-icons.css";` <== to your main.js or App.js
